## SUMMARY

Creative and detail-oriented Data Science enthusiast with strong foundations in data analysis, machine learning concepts, and statistical thinking. Proficient in Python, SQL, and data visualization tools. Adept at transforming raw data into meaningful insights, building predictive models, and optimizing decision-making through data-driven approaches.

## EDUCATION

|                                                                 |                       |
|-----------------------------------------------------------------|-----------------------|
| <b>B.Tech in Computer Science Engineering</b> , KL University   | <b>2023 – Present</b> |
| Specialisation: <b>Data Science And Big Data Analytics</b>      |                       |
| <b>CGPA: 9.2/10</b>                                             |                       |
| <b>Higher Secondary (Class 11 - 12)</b> , Sarada Junior College | <b>2021 – 2023</b>    |
| <b>Percentage: 85.00%</b>                                       |                       |

## SKILLS

### Technical Skills

HTML | CSS | JavaScript | React | Tailwind CSS | Git | MySQL | Python | DBMS | OOP  
| Tableau | Data Analytics and Processing | AWS | Azure |

### Professional Skills

Full-Stack Development | Version Control | Team Collaboration | Problem Solving | Communication

## EXPERIENCE

### Web Full Stack Developer Virtual Intern (AICTE & National Internship Portal) | Apr – Jun 2025

- Developed full-stack web applications using modern frontend and backend technologies with REST-based architecture.
- Implemented user authentication, database integration, and responsive UI components.
- Collaborated in a virtual team environment following industry-standard development workflows and version control practices.

### Student Leadership & Academic Representative — K L University

- Represented the university as a **Student Delegate** for Azure Department during the **NAAC Peer Team Visit**
- Led **two hackathon teams** as Team Lead

## PROJECTS

---

### Personal Portfolio — React + Tailwind CSS

- Created and deployed a personal portfolio showcasing projects with responsive design and smooth animations.

### Smart Food Truck — Full-Stack MERN Platform

- Built a **role-based web platform** with **JWT authentication and RBAC** using React (Vite), Node.js, Express, and MongoDB
- Implemented **real-time updates with Socket.IO** for order status, live chat, and truck location tracking
- Integrated **Google Maps API** for live map visualization and ETA calculation
- Developed **admin tooling and staff assignment workflows** to maintain system integrity and operational efficiency

## ADDITIONAL INFORMATION

---

### Certifications:

- MongoDB Associate Developer
- Salesforce Certified AI Associate
- Networking with Packet Tracer – Cisco
- Oracle Cloud Infrastructure 2025 Foundations Associate

**Languages Known:** English, Telugu
