Smart Food Truck — Full-Stack MERN Platform

- Built a full-stack MERN application for food truck operations using React (Vite), Node.js, Express.js, and MongoDB, with modular REST APIs and secure data handling.
- Implemented JWT-based authentication and role-based authorization for Admin, Manager, and Staff workflows to enforce secure and controlled access.
- Developed real-time features with Socket.IO for live order-status updates, in-app communication, and dynamic truck location tracking.
- Integrated Leaflet with OpenStreetMap and OSRM to deliver live map visualization, route rendering, and ETA estimation for better delivery planning.
